Q1 Tamil Nadu's breakfast scheme is a good model to improve school education & public health of the country. Discuss

Recently Tamil Nadu's govt. started Breakfast Scheme in which 1 to V class children to get breakfast & this is not a freebies said by CM Stalin.

Benefits of this scheme

1) Eating breakfast regularly confers positive outcomes on students.

2) Increase skills development

3) fulfill nutrient, calories, proteins.

4) Govt. targeted providing school children an average of 293 calories & average protein input of 9.85 gm per day.

5) Mid-day mill will ~~be~~ also going on in tamil nadu which also benefits or increase efficiency of the children.

6) Due to this schemes children come regularly in the school. because poor families not to fulfill their children needs so ~~this~~ parents push children to regular in the school ~~so~~ it increase the quality of the school. & improve education. quality.

7) Childrens ~~must~~ can focus in their studies because in hungry no one perform their best skills or utilise.

for Public Health

1) Govt of each states can also establish this schemes in their states.

2) for lower sections of the society. Govt. can establish this scheme

~~because~~ to fulfill their hunger.

3) if public health better than he/she can do work in a proper way.

4) Govt. also run some nutrient schemes like → National Nutrient programs.

Har Ghar poshan | Poshan abhiyan Karaykram | Integrated child development service program etc.

5) Right to food is our constitutional right through article 21. so it is duty of the govt. to fulfill ~~their~~ this.

6) Through all those schemes or Breakfast scheme people accomplish, their needs or to overcome hunger problem.

7) Our Sustainable goal No. 2 that is Zero hunger so we should achieve it. through this to construct this schemes.
