ADEETIE Scheme

Prelims: *Current events of national and international importance | Government policies and interventions*

Why in News?

The Union Ministry of Power, through the Bureau of Energy Efficiency (BEE), is set to launch a first-of-its-kind scheme—ADEETIE (Assistance in Deploying Energy Efficient Technologies in Industries & Establishments.

- **Focus -** Accelerating the adoption of cutting-edge energy-efficient technologies across the Micro, Small, and Medium Enterprises (MSME) sector while also supporting India's climate objectives.
- **Eligibility -** The scheme targets ***Udyam-registered MSMEs*** in identified energy-intensive clusters across various sectors like Brass, Bricks, Ceramics, Food Processing, Leather, Pharma, and Textiles.
    - It should be operated in one of the 60 identified clusters, and implement technologies capable of achieving at least 10% energy savings.
- **Financial Support -** Provides interest subvention on loans for implementing energy-efficient technologies *(5% for Micro and Small, 3% for Medium Enterprises).*
- Loan amounts can range from ***Rs 10 lakh to Rs 15 crore.***
- **Technical Assistance -** Offers support for Investment Grade Energy Audits (IGEA), Detailed Project Reports (DPRs), and monitoring energy savings.
- **Capacity Building -** BEE facilitates financing through an online platform.
- It provides technical handholding, interest subvention on loans, and policy support, enabling industries to lower energy costs, enhance productivity, and strengthen role in India’s clean energy transition.
- The scheme aligns with India’s broader climate goals, including ***reducing emissions intensity by 45% by 2030*** and ***achieving Net Zero by 2070.***
