\n\n

- \n
 - Trust boards have turned into fiefdoms of bureaucrats and politicians.
- \n
 - The development of ports has suffered, with decisions not being taken in an objective, transparent manner.
- \n
 - India's ports account for over 70% of India's international trade by value.
- \n
 - It's necessary to address inefficiencies such as high turnaround time of

ships by stepping up modernisation and grappling with careless management.

\n

- Specialised cargo handling berths have a higher scope for PPP, mechanisation and improved efficiencies.

\n

\n\n

What is the significance of the bill?

\n\n

\n

- The Bill comes as a measure for addressing the technical and governance issues in the ports.

\n

- It paves the way for **governance reform** in the management of 11 out of 12 major ports in India that now run as trusts. Notably, the Ennore port is a company.

\n

- The Centre acts as both regulator and service provider in these.

\n

- Under the provisions of the Bill, the **government** would only **regulate** the services provided by private players.

\n

- It will **not** be a **service provider** itself.

\n

- It thus addresses the issue of **conflict of interest**.

\n

- The new Bill marks an effort to promote **ease of doing business**.

\n

- With 'authority' status, ports will have a smaller **management** board.

\n

- This enables **expedient decisions** on modernisation and use of port trust lands in the public interest.
