

Anti-cheating Laws for Competitive Examinations

Why in news

Recently, the Bihar Assembly has passed Bihar Public Examinations (PE) (Prevention of Unfair Means) Bill, 2024.

Why cheating legislation is needed in India?

- **Cheating** - It takes place when an examinee attempts to attain academic credit through *dishonest, disrespectful, irresponsible, untrustworthy*, or unfair means.
- Leakage can *occur in any of processes* of the examination like while setting the question paper or in the exam centre or during evaluation/tabulation.
- **In India** - There is increase in instances of cheating in examination and the most frequent issue is paper leaks which occurred not only in various state exams but also in pan-India examinations.

- **Pan-India paper leaks**

- NEET-UG 2024 Exam
- NTA-UGC 2024 Exam
- Central Teachers' Eligibility Test (CTET) 2023
- According to data analysed by India Today's Open-Source Intelligence (OSINT) team,
 - 64 major exams across 19 states affected by leaks since 2019
 - Data includes FIRs, arrests, or exam cancellations
 - Uttar Pradesh reported maximum cases; Rajasthan, Maharashtra follow
- **Consequences of cheating** - It *undermines the principles of meritocracy*.
- It could lead to the *recruitment of incompetent individuals* in key government positions, which could have detrimental effects on public service delivery, governance, and overall development.
- It *perpetuates inequalities* by favoring those who could afford to pay for leaked exam papers or engage in fraudulent activities.
- It create widespread *frustration among the youth* who worked relentlessly for the exam.

Attributes of a Good Exam

- **Reliability** - It should give the same result for the same type of performance.
- **Validity** - It measure what it intends to measure.
- **Objectivity** - It eliminates subjectivity in evaluation.
- **Clarity & comprehensiveness** - It is clear on the process of examination.

What are features of bill?

In 2023, States like Rajasthan, Jharkhand, Uttarakhand, and Gujarat have passed an anti-cheating legislations.

What are the challenges?

- **Policy issues** - Many state still does not have any laws and existing laws may not adequately cover all forms of cheating.
- **Lack of standardization**- There is no uniform legislation across all states, leading to varying standards and enforcement practices.
- **Technological Challenges**- The rapid advancement in technology often outpaces existing legislation.
- This makes it difficult to address new types of cheating, such as sophisticated online cheating methods and cyber fraud.
- **Enforcement issues**- Lack of adequate resources and training for law enforcement agencies.
- Notably, there have been no convictions so far under the existing Acts in various

states.

- **Lack of awareness and education-** Often students, educators, and exam administrators lack the knowledge about the legal consequences of cheating.

What lies ahead?

- Make provisions for synchronizing union and state government in anti-cheating measures.
- Raise public awareness about the ethical and legal ramifications of cheating can help in building a culture of integrity.
- Review and evaluate the effectiveness of anti-cheating measures regularly.
- Utilize technology to prevent cheating like AI-based monitoring systems.
