

# **By-elections in Kashmir**

### Why in news?

 $n\n$ 

By-Polls in Kashmir's Anantnag was pushed back to May 25.

 $n\n$ 

### Why was it postponed?

 $n\n$ 

\n

 Violence by political protesters during the by-election in the Srinagar Lok Sabha constituency, resulted in one polling station set afire and temporarily shut down of many.

۱n

- This further resulted in the lowest-ever voter turnout of around 7%.
- Hence the Election Commission put off the by-election in Anantnag.
- EC ignored the Union Home Ministry's say on the condition of Kashmir Valley.

\n

 Though not consulting Union Government for Lok Sabha By-election is a right move, it left the security forces unprepared for the scale of violence, and failed to ensure conditions for free, unrestricted polling.

\n

# Why low voter turn-out?

 $n\n$ 

\n

- $\bullet$  Recent years recorded a higher voter participation in in the Valley.  $\ensuremath{\backslash n}$
- The current situation is indicative of a dramatic slide in the political situation.

\n

• The killing of Burhan Wani, a 'commander' of the Hizbul Mujahideen, by

security forces in July last year set off a new cycle of violence in Kashmir.  $\$ 

- $\bullet$  Subsequent violence resulted in tremendous alienation of people and the youth are up in arms.
- In these circumstances, by-elections may have no political meaning.
- In general election, a change of government is possible.
- $\bullet$  Protesters find it easier to disrupt the polling process in a by-election.  $\mbox{\sc h}$
- $\bullet$  Therefore for voters, the political stakes are low and the physical risks high.  $\ensuremath{^{\backslash n}}$

 $n\n$ 

#### What should be done?

 $n\n$ 

\n

- $\bullet$  Free re-polling in all the booths that witnessed violence should be done. \n
- $\bullet$  Re-polling in Srinagar too should be put off by a few weeks. \n
- Kashmiris should also be provided a larger political motivation to go to the polling booths, a belief that their vote will count for something.  $\n$
