Police received two separate complaints in Delhi.

#### What is the concern?

 $n\$ 

- The question papers are usually sealed and stored in secret places.
- They are released to authorised officials with a window of only a few hours. \n

- In addition, the board has dedicated secrecy officers for each region.
- But clearly, the standard operating procedure was easily breached in the present case.

\n

- The questions were circulated on instant messaging platforms.
- It is evident that the Ministry of Human Resource Development failed to assign top priority to secrecy and integrity of the process. \n

### What is the way forward?

 $n\n$ 

• Inquiry - The HRD Ministry should conduct a thorough inquiry to get at the truth and initiate remedial steps without delay.

• Authority - The National Testing Agency was cleared by the Union Cabinet last year.

\n

- The Centre assured that this would soon be operationalised to prevent a repeat of question papers leaks in public examinations.
- NTA was although was originally supposed to take charge of entrance examinations in the first phase.
- Testing Methodology The testing pattern lays too much emphasis on quantitative indicators.

- Also, social pressure associated with education makes it more vulnerable to corruption pressures, undermining the very purpose. \n
- There is thus a need for a credible testing method to assess a student's aptitude and learning.
- Multiple assessments, instead of the current one all-important definitive board examination, could be considered.
- This can go a long way in reducing the exam stress for the students.
- But for now, the CBSE has to restore faith in its processes. \n
