DAANVEER Initiative

Prelims: *Current events of national and international importance | Government policies and interventions*

Why in News?

- It is a platform designed not just to close the immediate computer gap in the Gram Panchayats but to evolve into a long-term, citizen-powered ecosystem for strengthening local institutions.
- It is a transparent, end-to-end digital and verifiable platform that enables citizens and organisations to contribute towards the identified technology and infrastructure needs of Gram Panchayats in India.
- Under this, every Gram Panchayat is digitally equipped, connected and future-ready.
- The initiative provides citizens across the globe, with an opportunity to reconnect with their roots by contributing meaningfully to the development of their native villages.
- It enables individuals and organisations to contribute standardized, quality-verified computer bundles directly to eligible Gram Panchayat.
- It was launched by Ministry of Panchayati Raj in New Delhi.
- It has been developed in collaboration with the National Informatics Centre (NIC) and DigiHaat.
