

## Daily Mains Practice Question 24-06-2026

### GS III - Science and Technology

Despite demonstrating technological foresight through initiatives such as SCL, ECIL, and the Simputer, India has often struggled to scale innovation into globally competitive industries. Examine the reasons for this trend and discuss the measures required to position India as a global leader in emerging technologies such as AI, quantum computing, and space technology. **(15 Marks, 250 Words)**
