# Elderly Population in India

Why in news?

Amidst the focus on demographic dividend, the country is seeing a silent rise in its elderly demographic and increased problems caused by loneliness in later life.

What is the Status of Elderly Population in India?

- **Demographic ageing** – It is a global phenomenon of increasing elderly population which has hit Indian shores as well.
- It is possible due to
    - Easy availability of life saving drugs
    - Control of famines and various communicable diseases
    - Better awareness and supply of nutrition and health facilities
    - Comparatively better overall standard of living.
- **Elderly population** – The WHO defines those aged 60 -74 years as elderly.
- In 1980 the UN recommended 60 years as the age of transition for the elderly segment of the population, and has been categorized as follows:
    - **Young Old**- between the ages of 60-75 years.
    - **Old-Old**- between the ages of 75-85 years.
    - **Very Old**- 85 years and above

*The number of people 60 years and over in the globe is 673 million in 2005 and is expected to increase to 2 billion by 2050, almost a triple increase and the 1ˢᵗ quarter of 21st century is going to be called as **'The age of ageing'**.*

- **In India** – According to Population Census 2011 there are nearly 104 million elderly persons (aged 60 years or above) in India
    - 53 million females and 51 million males.
- It is expected to rise significantly from 100 million in 2011 to 230 million by 2036.
- By 2050, they are projected to make up nearly 20% of the total population.

India's rapidly growing elderly population

Senior citizens constitute about 10% of the population currently, but this will double by 2050

Share of elderly (60+) in population (%)

- **Old age-dependence ratio** – It measures the number of people aged 60-plus per 100 persons aged 15-59, has been steadily increasing.
- **Elderly in India 2021' report** – According to this report of Ministry of Statistics and Programme Implementation, the old-age dependency ratio increases in the following manner
  - 1961 – 10.9%
  - 2011 – 14.2%
- It is anticipated to have reach 15.7% in 2021 and 20.1% by 2031.

What are the concerns of elderly population?

- **Disabilities** – Old age implies increasing physical, mental and psychological disabilities.

- **Health concerns** - Health issues like blindness, locomotor disabilities and deafness are most prevalent.
- Absence of geriatric care facilities at hospitals in rural area.
- **Economic problems** - Economic dependence is one of the major factors that very often affects the wellbeing of older persons.
- The functional ability status of the care receiver and care giver is an additional factor that appears to contribute to the burden.
- **Exacerbated class disparities** - The market offers a wide and innovative array of eldercare services.
- However, this is not accessible to those who cannot afford these services.
- **Increased loneliness** – The Longitudinal Ageing Study in India (LASI) in 2017-18 surveyed 72,000 people from 35 States and Union Territories.
- 20.5% of adults aged 45 years and above reported moderate loneliness, and 13.3% were severely lonely.

How loneliness can be addressed among elderly population?

- **Encouraging familial responsibilities** – Families shall be encouraged to undertake the _maximum amount of care work_ possible.
- **Moving to care homes** – In this way, one can _live with others from similar backgrounds_ and be free from arranging daily care for oneself.
- **Joining social forums** - Joining offline or online forums to _socialise with those from the same age group_.
- **Promoting intergenerational bonding**- Many old people in care homes believed _interacting with young students was enjoyable and alleviated feelings of loneliness_ to some extent.
- **Purchasing companionship services** – It involves younger people to provide companionship services to older clients.
    - **For example**: _**Pronam**_ is a public-private partnership in Kolkata, catering to the needs of older people who do not live with their relatives.

Companionship Services
• **Companions** – Younger people • **Function** – These companions function as _proxies for people's children_ and undertake different types of work.   - **For instance**: Paying electricity bills, providing reminders for medicines and taking them out on walks or to the doctor. • **Establishing trust** – Care companions build an _emotional connection_ with the people they look after and many clients look forward to their visits and become dependent on them. • _Regular visits_ to check on the wellbeing of older people even without forming strong bonds can also be a useful measure to tackle loneliness.

What are the initiatives taken by India?

- **Constitutional measures** - Article 41 and Article 46 are the constitutional provisions for elderly persons.

    **Article 41** of the Indian Constitution directs the state to secure the right to work, education and public assistance in certain cases such as unemployment, old age, sickness and disablement.

    **Article 42** of the Indian Constitution direct the State to make provision for securing just and humane conditions of work and for maternity relief.

- **Legislative measures** - _Maintenance and Welfare of Parents and Senior Citizens Act, 2007_ provides legal sanctions to the rights of the elderly.
- Section 20 of _Hindu Marriage and Adoption Act, 1956_ makes it obligatory provisions to maintain an aged parents.
- Under _Section 125 of Criminal Procedure Code_, the elder parents can claim maintenance from their children.

- **Financial measures** – The expenditure for implementation of the various scheme is being met from the *"Senior Citizens' Welfare Fund"*.
- **Policy measures** - National Policy for Older Persons Year 1999 – It is launched for accelerating welfare measures and empowering the elderly in ways beneficial to them.
- **Atal Vayo Abhyudaya Yojana (AVYAY) –** It is a comprehensive initiative aimed at ensuring a *dignified life for senior citizens* in India.
- It *recognizes the contributions made by the elderly* to society and seeks to ensure their well-being and social inclusion.
- **Senior care Ageing Growth Engine (SAGE) –** It aims to *help startups* interested in providing services for elderly care.
- **Integrated Programme for Senior Citizens –** It primary objective is to *improve the quality of life* of the old-age population.
- It provides *financial support* for running and maintaining elderly Homes, Continuous Care Homes, Mobile Medicare Units, etc.
- **Rashtriya Vayoshri Yojana-** It aims to *provide Physical Aids and Assisted-living Devices* for Senior citizens belonging to BPL category.

Way forward

- Recognizing loneliness as a public health concern and adapt strategies to support those affected by this growing issue.
- Enhance mental health awareness by improving healthcare facilities, and addressing social disparities.
- Take a comprehensive surveys in local languages can uncover the extent of loneliness across India's diverse population.

The year 1999 was declared by the UN as the International Year of Older Persons.
