

### **Financial Services Institutions Bureau**

## Why in news?

The Financial Services Institutions Bureau (FSIB), which will replace the Banks Board Bureau (BBB), will be more than a headhunter to fill in critical posts at state-run banks, insurers, and other financial institutions (FIs).

### What is Financial Services Institutions Bureau (FSIB)?

- It's a government body set up under the Department of Financial Services.
- The board will be entrusted with making recommendations for the appointment of full-time directors and non-executive chairman of state-run financial services institutions.
- It would also issue guidelines for selecting general managers and directors of public sector general insurance companies.
- While its main task is to play the role of head-hunter for the state-owned financial services entities, the board will also be involved in formulating and developing business strategies for state-run banks and help them in their fund-raising plans.

# Why has it replaced Banks Board Bureau (BBB)?

- The BBB was declared an incompetent authority last year by the Delhi High Court.
- A general manager at state-owned National Insurance Company challenged the appointment of a person junior to him for the Director's position by the BBB.
- Consequent to the order, 10-11 directors appointed by the BBB had to vacate office.
- To end this logjam, the BBB had to be struck down and a new body, namely, FSIB had to be put in place vide approval from the Appointments Committee of the Cabinet, headed by the prime minister.

#### What is FSIB's mandate?

 The primary role of FSIB is to identify manpower capabilities and ensure the proper selection of talent for senior positions at financial institutions owned by the government.

- However, when BBB was brought into force in April 2016, it was envisaged as a body that would efficiently corporatize and make government entities function like private players, but it didn't make much headway on that front.
- It would also monitor and assess the performance of public sector banks, government-owned financial institutions, and insurance companies.

## How were senior bank officials appointed before BBB?

• Promotions and recruitments happened at the will and mercy of the government.

### How critical is the role of FSIB?

- When BBB was brought into action, there was consolidation within public sector banks, first with Bank of Baroda in 2018 and then a year later with 10 PSU banks.
- Again, there could be another round of bank mergers and privatization of both banks and insurance companies.
- The criticism often surfacing is whether PSU entities are ready to withstand the test of privatization from an operations and management perspective, which has a deep nexus with the efficiencies of the workforce at all layers.

# Who heads the new entity, and who are its members?

- FSIB would be headed by a chairman, a central government nominee.
- The board would comprise the Secretaries of the DFS, the chairman of IRDAI, and a deputy governor of the RBI.
- Additionally, it will have three part-time members who are experts in banking and three more from the insurance sector.

# What is the way forward?

- With FSIB, the intent is to go beyond the man-manager role and assist the government in formulating a code of conduct and ethics for whole-time directors in these entities.
- The FSIB aims to prevent red tape and promote people based on merit.
- The silent mandate of FSIB would be to ready banks and insurance companies for the privatization process and undertake the necessary clean-up/HR upliftment practices.
