

# **Ireland's Impact on Brexit**

#### What is the issue?

 $n\n$ 

Tension over Northern Ireland's border issues is hampering Brexit talks

 $n\n$ 

## What is the history of Ireland?

 $n\n$ 

 $n\n$ 

\n

- $\bullet$  Ireland is an island that lies to the west of the British mainland and has two separate politically independent territories.  $\mbox{\sc h}$
- Northern Ireland which is about  $1/6^{\rm th}$  of the total island is a part of the UK and is administered as a relatively autonomous region. \n
- The rest of the island forms the 'Republic of Ireland' and is an independent sovereign nation since 1922.
- **Religious Tensions** The Republican Ireland has a predominantly catholic population of native Irish dissent.
- Contrarily, Northern Ireland has a Protestant majority of British dissent, with a significant Catholic minority of Irish dissent.
- Between 1960s and 1990s, Northern Ireland saw political tensions between pro-UK protestant unionist and Catholic nationalists.
- While the former had the backing of the government and were wealthy, the latter wanted to merge with the Republican South.
- $\bullet$  After prolonged negotiations, the 1998 "Good Friday Agreement" ended tensions to a great extent.  $\mbox{\sc h}$

### What has been the island's relationship with the EU?

 $n\n$ 

\n

• **Economic Integration** - Both the Republic of Ireland and UK (thereby Northern Ireland) became members of the "European Economic Community (EEC)" in 1973.

۱n

- $\bullet$  EEC later evolved to become the EU and also to a great extent helped to ease the tensions between the Unionists & Nationalists. \n
- Currently, over 35,000 people and 6,000 trucks cross the border between the Republic of Ireland and Northern Ireland.
- **Current Situation** As Britain is set to leave the EU, it will also be exiting the single market and customs union.
- Hence, the future relationship between Republican Ireland and Northern Ireland is currently a challenging puzzle to solve.
- $\bullet$  The Irish question was brought up by some top politicians even before the Brexit Referendum but remains unresolved as yet.  $\mbox{\sc h}$

 $n\n$ 

\n

 The political sensitivity around the Irish question could potentially lead to a resurgence of violence, if issues aren't addressed in time.

 $n\n$ 

## What are the challenges ahead?

 $n\n$ 

\n

- The Irish Demand Ireland's case is currently being prioritised over all else in the Brexit negotiations.
- $\bullet$  Irish PM Leo Varadkar has demanded a soft border that would facilitate unhindered trade, and EU has stood firm with him.  $\$

 $n\n$ 

\n

• The Problem - If Northern Ireland was to remain within the EU customs union (common market), an internal barrier between Northern Ireland and the British mainland would be required.

• But the unionist DUP (major party in Northern Ireland), has categorically opposed this.

\n

- It has stated that it doesn't want Northern Ireland to be seen as different from the rest of the U.K. in anyway.
- $\bullet$  UK has hence said that the entire deal needs to be clear before any equations with the Republic of Ireland are worked out.  $\mbox{\sc h}$
- Other Aspects The tensions over Ireland have overshadowed progress on other issues of the Brexit deal.

\n

• Notably, many of the issues were resolved after significant compromises by UK.

\n

- The leave side in Brexit sought to position the process as a U.K.-centric to take back sovereign control.
- $\bullet$  This hasn't happened as concerns of other member-states have taken prominence with little room for Britain to negotiate. \n
