

# **Kovind Committee report on Simultaneous Elections**

## Why in news?

The High level committee on One Nation, One Election recently submitted its report to the President.

## What is One Nation, One Election?

- It means that the voters will cast their vote for electing members of the Lok Sabha and the state assemblies on a single day, at the same time or in a phased manner as the case may be.
- **Simultaneous Elections** It refers to structuring the Indian election cycle by synchronizing the elections to Lok Sabha and State Assemblies.
- **Historical context** Simultaneous elections were previously implemented in 7 states in 1957 to streamline the electoral process and enhance administrative efficiency.
- Decline of simultaneous election-The simultaneous elections which was implemented in 1957 ceased after 1967 due to various factors such as constitutional provisions allowing dismissal of state governments and the collapse of coalition governments.
- **Current scenario-** The elections to the state assemblies and the Lok Sabha are held separately (whenever the incumbent government's 5-year term ends or whenever it is dissolved).

#### Why the government is in favour of conducting simultaneous elections?

- **Financial burden-** Frequent elections burden the government exchequer with additional expenditure. If the expenditure incurred by political parties is also added, these figures will be even higher.
- **Uncertainty-** Asynchronous elections cause uncertainty and instability, adversely affect supply chains, business investments and economic growth.
- **Disruption of government machinery-** The staggered nature of elections disrupts the functioning of government machinery, leading to <u>administrative challenges</u> and <u>hardships for citizens</u>.
- Impact of Model Code of Conduct- The frequent imposition of the Model Code of Conduct (MCC) can cause <u>policy paralysis</u> and slows down the pace of the developmental programmes.
- **Voter's fatigue-** Staggered elections induce 'voters' fatigue' and present a significant challenge in ensuring their participation.
- **Disrupt duties** The frequent use of government officials and security forces adversely affect discharge of their duties.

## What are the key highlights the committee's recommendations?

## High level committee

- **Purpose-** It was set up to recommend constitutional amendments for simultaneous elections to Lok Sabha, State assemblies, and local bodies.
- Chairman- Former President Ram Nath Kovind.
- Launch year- 2023
- **Constitutional amendments-** The committee suggests amending the Constitution to enable simultaneous elections in two steps.
- **First step** It involves simultaneous elections to Lok Sabha and State Assemblies *without requiring state ratification*.
- **Second step** It involves synchronizing local body elections with national and state elections, <u>requiring ratification by at least half of the states</u>, which would be held <u>within 100 days</u>.
- **Article 82(1)-** It is introduced by the committee in the Constitution to establish the process for transitioning to simultaneous elections.
- Amendment to tenure- Articles 83 and 172 must be amended to redefine the terms "full term" and "unexpired term" for Lok Sabha and state Assemblies, respectively, in case of dissolution before completion.
- The new provisions ensure that the replacement Lok Sabha or state Assembly serves only the unexpired term before dissolution upon completion of simultaneous elections.
- **Election preparation**-To prepare <u>single electoral roll</u> and <u>electoral photo identity</u> <u>cards</u> for use in elections to all the three tiers of government, the Constitution should be amended which requires ratification by not less than one-half of the states.
- **Conduct fresh elections** In the event of a <u>hung House</u>, <u>a no-confidence motion</u>, <u>or any such event</u>, fresh elections should be held to constitute the new Lok Sabha or State Assembly for the unexpired term of the House.
- Logistics planning- To meet logistical requirements, the Election Commission of India will plan and estimate logistical requirements (manpower, polling personnel, EVM/VVPAT etc.,) so that free and fair simultaneous elections are held in all the three tiers of the government.

## How the Kovind committee addresses the concerns with simultaneous elections?
