

## Multinational instrument on taxation

### Why in news?

\n\n

Recently OECD's Multilateral Instrument (MLI) to collect or retain revenues was signed by 67 countries, including India, in Paris.

\n\n

### What is OECD?

\n\n

\n

- The Organisation for Economic Co-operation and Development is an intergovernmental economic organisation.

\n

- It has 35 member countries, India is not a member of this organization.

\n

- It was founded in 1960 to stimulate economic progress and world trade.

\n

- It is a forum of countries describing themselves as committed to democracy and the market economy.

\n

- Most OECD members are high-income economies with a very high Human Development Index (HDI) and are regarded as developed countries.

\n

\n\n

### What is BEPS?

\n\n

\n

- Base Erosion and Profit Shifting (BEPS) refers to those instances where gaps between different tax rules leads to tax avoidance causing harm to the government.

\n

- Due to gaps in application of the bilateral tax treaties, cross border activities may go untaxed in any of the two countries.

- \n
- No or low tax is paid by shifting profits to low tax jurisdictions and shifting losses and high expenditures to high tax jurisdictions.
- \n
- Further, the spread of the digital economy has also posed challenges for international taxation.
- \n
- Over the years, the MNCs have artificially reduced their corporate tax outgo by shifting to lower tax jurisdictions.
- \n

\n\n

### **What is the present initiative by OECD?**

\n\n

- \n
- The OECD's Base Erosion and Profit Shifting (BEPS) project is done to reduce global tax burdens through hybrid arrangements, transfer pricing and permanent establishments.
- \n
- Broadly there are two initiatives
- \n

\n\n

- \n
1. Inclusive Framework for BEPS
- \n
2. Global Forum on Tax Transparency(GFTT)
- \n

\n\n

### **What is MLI about?**

\n\n

- \n
- The MLI's Action 15 of BEPS, objective is to simultaneously modify bilateral tax treaties of countries that sign the MLI.
- \n
- This enables BEPS Actions to take immediate effect instead of through a slower process of modifying bilateral treaties.
- \n
- The MLI document is additional to a bilateral treaty and does not replace the latter.

- \n
- There are minimum standards to be met by every country before signing the MLI
- \n
- there is also considerable flexibility allowing a signatory to register its reservations on selected aspects of the MLI
- \n

\n\n

### **What are constraints on MLI Implementation?**

\n\n

- \n
- There is more transparency needed on the working of the MLI
- \n
- There is pressure on countries for, when countries do not sign the MLI.
- \n
- This is not the Final solution, there is continuing need for specialised platforms.
- \n
- This is not universal, that is it is not an international taxation.
- \n

\n\n

### **What is the role of India in OECD policy?**

\n\n

- \n
- In GFTT which India is in a key position and is participating on equal footing with OECD members.
- \n
- India has not signed on to mandatory arbitration which it should reconsider.
- \n
- India played a lead role in the MLI.
- \n
- It comprises a good step for India in benchmarking itself in international taxation.
- \n
- India's participation should continue at the highest knowledge level for its success.
- \n
