

Optional Practical Training program

Prelims - Current events of national and international importance.

Mains (GS II) - Bilateral relations of India

Why in News?

A Bill was introduced in the US recently to end the Optional Practical Training program for those no longer engaged in full-time study in the United States.

The F-1 Visa (Academic Student) allows you to enter the US as a full-time student at an accredited college, university, seminary, conservatory, academic high school, elementary school, or other academic institution or in a language training program.

- The OPT program allows students (who are in the US on F1 visas) to work for <u>up to</u>
 <u>12 months</u> in a field related to their area of study.
- Types
 - Pre-completion OPT International students are required to be enrolled in a full-time program in the United States for a minimum of one academic year before they can finish their studies.
 - Post-completion OPT It allows the student to work after graduating.
- **Eligibility** To be eligible for the OPT program, students are required to be enrolled full-time for a minimum of one academic year.
- They must submit their application through their educational institution, which has the authority to endorse them for OPT.
- The application process is managed by the United States Citizenship and Immigration Services (USCIS).
- Students who hold F-1 status are permitted to stay in the United States while participating in OPT employment.

Of the 3,31,602 Indian students in the US, around 29% or 97,556 students were on OPT in 2023-24.

- Extension for STEM students Students in STEM (Science, Technology, Engineering, and Mathematics) fields can extend their OPTs by another 24 months.
- This effectively means that a student in a STEM field can work in the US for <u>3 years</u> <u>after graduation</u>.
