

Pesticide Management Bill - 2008

What is the issue?

 $n\n$

\n

• Recently, deaths due to pesticide spraying has been reported.

 $n\n$

\n

• This has brought the focus on the pending 'Pesticide Management Bill' that seeks to replace the Insecticides Act, 1968.

 $n\n$

What are the highlights of the bill?

 $n\$

۱n

- \bullet The bill seeks to improve the regulations in the manufacture, inspection, testing and distribution of pesticides. \n
- It proposes a system of licensing and also sets the criteria for classifying pesticides as misbranded, sub-standard, or spurious.
- Constituting a Central Pesticides Board to advise the government on pesticide related regulation is also among its provisions.
- Fixation of tolerance limits by FSSAI for pesticide residues on crops and commodities is touted to become mandatory.
- State governments are envisioned to implement the set-up.

 $n\n$

What are the changes being considered?

 $n\n$

\n

- The Bill defines a pesticide as any substance used to destroy or control pests in agricultural commodities or animal feeds.
- So, pesticides used for non-agricultural purposes, such as health care, are outside the ambit.

\n

- \bullet Hence, the Parliamentary Standing Committee has recommended that a broader definition for the same. $\ensuremath{\backslash} n$
- While FSSAI has been mandated for fixation of residual pesticide limits, the relevant provisions of the Food Safety and Standards Act are yet to be enforced.

\n

• Also, the Bill does not specify penalties for pesticide inspectors or currently – which needs alteration.
