- **Decline in bird count** The number of birds is lower during this year, where last year a total of <u>345 bird species spotted</u>.
- **Reasons** It attributed to many reasons including,
 - Rains and unscientific de-silting of water bodies that wiped off natural vegetation from the bunds.
 - Dumping waste in lakes unaware of the presence of domestic and migratory birds.
 - Copious water in the lakes.

• Brimming lakes.
