## Mycobacterium indicus pranii (MIP)

\n\n

∖n

- MIP is a non-pathogenic bacteria.
- In its heat-killed form, it acts by sprucing up the body's immunity.
- \n
- It has received approval as a leprosy vaccine from the Indian drug regulator, Central Drugs Standard Control Organisation, and the US Food and Drug Administration (FDA).

∖n

 Apart from leprosy, it is also being tried as a vaccine against bladder cancer, warts, lung cancer and TB.

\n\n

## **Chinnar Wildlife Sanctuary**

\n\n

∖n

• Chinnar Wildlife Sanctuary (CWS) is located in the Idukki district of Kerala state in South India.

\n

• The CWS is the only place in Kerala where star tortoises are known to occur in the wild.

∖n

• It has recently succeeded in its attempt to rehabilitate Indian star tortoises seized from smugglers.

\n

- According to IUCN, Indian star tortoise is vulnerable.  $\slash n$
- CWS is the only rehabilitation centre for star tortoises in the country.  $\space{\space{1.5}n}$

\n\n

## **Indian Council of Social Science Research (ICSSR)**

\n

- ICSSR is the apex body for promoting research in social sciences.  $\ensuremath{\sc n}$
- It was established in 1969 as an autonomous body under Government of India with their office in New Delhi.  $\n$
- Among the BRICS nation India spends minimum on social science research among which majority goes to ICSSR.  $\gamman \n$
