### **Electric Vehicle Capital of India**

\n\n

\n

- Karnataka wants to become the electric vehicle capital of India.
- Karnataka is the first state to roll out an Electric Vehicle and Energy Storage Policy.
- The policy looks not only at boosting sales of EVs, but also setting up charging infrastructure.
- Policy aims to set up EV manufacturing zones along with facilities for testing that can be used even by start-ups.
- The state estimates that it will be able to create employment for 55,000 individuals over the next few years through the EV industry.

\n

\n\n

### **SHAKTI**

\n\n

\n

- Scheme for Harnessing and Allocating Koyala (Coal) Transparently in India (SHAKTI) is the new scheme of the centre to provide cheaper coal to private power units through bidding.
- Under this new programme, Coal India offered assured coal supply to units through bidding.
- The private power units had to quote the discount in their power tariffs that they would offer after getting cheaper coal from the company.
- Thus the bidding will be for private power units with power purchase agreements (PPAs) but no long-term coal supply.

\n\n

## **New NIRF Exercise**

\n\n

- \n
  - National Institution Ranking Framework (NIRF) for the year 2018 has been announced by the centre with a change.
- \n
  - The NIRF ranking was started in 2016, ranks higher educational institutions in India on the basis of a variety of parameters.
- \n
  - The 2016 and 2017 NIRF lists reflected the ranks of only those institutions that had taken part in the exercise.
- \n
  - But for 2018, instead of institutions choosing to take part in the exercise, they are being auto-registered through a large online database.
- \n
  - The All-India Survey on Higher Education (AISHE) portal of institutions available with the Ministry of Human Resource Development will be used for auto registration of institutions.
- \n
  - With this initiative, the number of institutions for NIRF is expected to raise three fold from previous year rankings.
- \n
  - Last year ranking, among universities, Indian Institute of Science in Bangalore was ranked first and Jawaharlal Nehru University in Delhi was second.
- \n

\n\n

## **Citizenship for Chakma and Hajong refugees**

\n\n

- \n
  - GoI has announced that it will grant citizenship to all chakma and hajong refugees living in the north east.
- \n
  - The government also ensured that the rights of the indigenous people are not diluted.
- \n
  - Chakmas and Hajongs were originally residents of Chittagong Hill Tracts of Bangladesh (erstwhile East Pakistan).
- \n

- They left their homeland when it was submerged by the Kaptai dam project near Chittagong, Bangladesh, in the 1960s.  
\n
- The Chakmas, who are Buddhists, and Hajongs, who are Hindus, also allegedly faced religious persecution and entered India through the then Lushai Hills district of Assam (now Mizoram).  
\n
- The Centre moved the majority of them to the North East Frontier Agency, which is now Arunachal Pradesh.  
\n

\n\n

## **Monitor Lizard**

\n\n

- \n
- India is home to four varieties of monitor lizard - Agra, Yellow, Water, and Large Bengal.  
\n
- Monitor Lizards are protected under Schedule 1 of the Wildlife Protection Act, 1972.  
\n
- They share their Schedule 1 status with tigers, rhinos, elephants and leopards, and hunting or harming them can attract jail terms of at least 3-7 years;  
\n
- Their trade is restricted under Appendix 1 of the Convention on International Trade in Endangered Species (CITES).  
\n
- The male reproductive organs of monitor lizards are traded in the name of “Hatha Jodi”, which is claimed to possess magical powers that ensure prosperity for its owner.  
\n

\n\n

## **Forest Plus Programme**

\n\n

- \n
- Forest Plus, also known as Land Use Science is a joint programme by the United States Agency for International Development (USAID) and Ministry of Environment, Forest and Climate Change (MoEF&CC).  
\n

- It aims to strengthen capacity for REDD (Reducing Emissions from Deforestation and Forest Degradation) implementation in India.
- It brings together experts to develop technologies, tools and methods of forest management to meet the technical challenges of managing forests for the health of ecosystem, carbon stocks, biodiversity and livelihood.
