# **Glasgow Climate Deal**

The Glasgow Climate Deal has been made with a last-minute change.

- Under the Glasgow climate pact:
  - 1. Big carbon polluting Countries were asked to republish their climate action plans by the end of 2022, with stronger emissions reduction targets for 2030
  - 2. There is an emphasis on the need for developed countries to increase the money they give to those already suffering the effects of climate change beyond the current \$100bn annual target and
  - 3. A pledge in a previous draft to "phase out" coal was instead watered down to a commitment to "phase down" coal.
- The 'phase down' change will make it harder to achieve the international goal to limit warming to 1.5°C (2.7°F) since pre-industrial times.
- In addition to the revised coal language, the Glasgow Climate Pact included enough financial incentives to almost satisfy poorer nations and solved a long-standing problem to pave the way for carbon trading.
- UN's criteria Ahead of the Glasgow talks, the United Nations had set 3 criteria for success, and none of them were achieved. They are,
  - a. Pledges to cut carbon dioxide emissions in half by 2030,
  - b. \$100 billion in financial aid from rich nations to poor, and
  - c. Ensuring that half of that money went to helping the developing world adapt to the worst effects of climate change.

## Sabz Burj

Sabz Burj has been conserved and restored over the last 4 years using traditional materials and building-craft techniques favoured by 16th century craftsmen.

- Built in 1530, Sabz Burj is one of the earliest Mughal-era monuments in Delhi.
- The tomb does not have any markings pointing to the identity of those buried under it.
- However, it is of immense significance due to the ceiling on its double dome structure painted in pure gold and lapis, which is the earliest surviving painted ceiling for any monument in India.
- The painting on the ceiling that has floral motifs predates similar work that was seen in miniature paintings and textiles from the Mughal era.
