

SDMC's Order

Why in news?

 $n\n$

South Delhi Municipal Corporation (SDMC) made it mandatory for all hotels and restaurants in its jurisdiction to give full access to the general public to their toilet facilities.

 $n\n$

What the order has said?

 $n\n$

\n

• The move is part of a **soon-to-be national campaign** to make more toilet facilities available to the public, with special focus on women and children.

\n

- The broad ideas are hygiene and security.
- The suggestion came from Delhi Lieutenant Governor who urged SDMC to explore the possibility.

\n

- Restaurant managements have been given the discretion to charge up to Rs 5 per use of their toilets.
- SDMC claims that as a result of the initiative, an additional 3,500 toilets will be accessible to the public.
- By roping in hotels and restaurants along with petrol pumps, it would make as many toilets available to the public as possible.

 $n\n$

What is the reaction of the public?

 $n\n$

\n

- ullet The decision has produced mixed reactions from restaurant owners.
- One side has complained of an undermining of their 'rights of admission'.

\n

- Other side has pointed out that it is **insensitive to deny access** to an individual who needs to use the restroom.
- \bullet Both sides agree that the proposed Rs 5 charge to ostensibly cover costs of maintenance and cleaning. \n

 $n\n$

How does the SDMC justified its decision?

 $n\n$

\n

- The corporation maintains that because restaurants get health trade licences from the corporation, they are bound to follow its orders.
- Also, a study commissioned by the Centre in 2015 to gauge the progress of Swachh Bharat programmes put Delhi at the $16^{\rm th}$ position.
- While on paper, the SDMC has 600 urinals and roughly 400 toilet complexes in its jurisdiction, **most of them are unusable**. $\$
- Maintenance of the SDMC's public facilities is poor because the corporation does not have jetting machines that spray water at high pressure to clean the toilets.
- So, in the light of the SDMC order, it is pertinent to consider, the state of its existing public utilities also.
