

The Competition (Amendment) Bill, 2022

Why in news?

The long-awaited Bill to amend the Competition Act, 2002, was finally tabled in the Lok Sabha recently.

What is the need for the amendment?

The Competition Act, 2000 establishes the Competition Commission of India (CCI) for regulating market competition.

- The Indian Competition Act was passed in 2002, but it came into effect only seven years later.
- The Competition Commission primarily pursues three issues of anti-competitive practices in the market
 - Anti-competitive agreement
 - Abuse of dominance
 - Combinations (Combinations imply mergers, acquisitions, or amalgamation of enterprises)
- As the dynamics of the market changes rapidly due to technological advancements, amendments became necessary to sustain and promote market competition.
- Therefore, a review committee was established in 2019 to propose amendments.

How is the bill different from the existing Act?

- **Filing false information**- A penalty of 5 crore will be imposed, and for failure to comply with the Commission directions, a penalty of 10 crore will be imposed.
- The Commission will develop guidelines regarding the amount of penalties for various competition violations.

- **Appeal**- For an appeal to be heard by the National Company Law Tribunal (NCLT) against the Commission's order, the party will have to deposit 25% of the penalty amount.

What is the significance of the amendment?

- **Regulation of combinations**- It will strengthen the Commission's review mechanism, particularly in the digital and infrastructure space.
- **Accelerating the approval time**- This will speed up the clearance of combinations and increase the importance of pre-filing consultations with the Commission.
- **Notifying in advance**- Similar to the European Union merger regulations, the present Bill proposes to exempt open market purchases and stock market transactions from the requirement to notify them to the Commission in advance.
- **Issue of Hub-and-Spoke Cartels**- A Hub-and-Spoke arrangement is a kind of cartelisation in which vertically related players act as a hub and place horizontal restrictions on suppliers/retailers (spokes).
- The amendment broadens the scope of 'anti-competitive agreements' to catch entities that facilitate cartelisation even if they are not engaged in identical trade practices.
- **Handling the new age market**- By implementing these amendments, the Commission should be better equipped to handle certain aspects of the new-age market and transform its functioning to be more robust.
