

The Key Highlights of PM Modi's Red Fort Speech

Mains: *GS II - Polity*

Why in News?

Addressing the nation on the 80th Independence Day, Prime Minister Narendra Modi announced a series of measures and highlighted the thought of Saptadhara.

What is the concept of Saptadhara highlighted by the Prime Minister?

The Prime Minister identified seven major streams that will drive India's next phase of growth:

- **Manufacturing Power** - Make India a global manufacturing and supply-chain hub.
- **Agriculture & Food Processing** - Move from farm to value-added processing and global exports.
- **Technology & Innovation** - Lead in AI, quantum, space, robotics, DPI and 6G.
- **Gati Shakti / Infrastructure** - Build integrated, multimodal and efficient infrastructure.
- **Defence Shakti** - Achieve strategic self-reliance and become a global defence-technology supplier.
- **Green & Blue Economy** - Lead in renewable energy, green hydrogen and sustainable ocean-based development.
- **Soft Power** - Leverage India's culture, yoga, Ayurveda, tourism, sports and creative industries globally.

What are the key highlights and announcements?

- **Viksit Bharat 2047** - India aims to become a developed nation by the centenary of independence through high ambition, determination and collective effort.
- **Aatmanirbhar Bharat** - Greater domestic capabilities, reduced dependence on imports and stronger Indian manufacturing were emphasized.
- **Economic transformation** - Defence production, electronics, mobile manufacturing, digital transactions, patents and infrastructure have expanded significantly over the past decade.
- **Manufacturing** - India must compete globally on cost, quality and scale, while developing complete domestic supply chains.
- **Agriculture & food processing** - Focus on chemical-free farming, value addition, farm-to-export chains and making Indian agricultural products globally competitive.
- **Technology & innovation** - India should move from being a technology market to a global innovation hub, particularly in AI, quantum technology, space, robotics, DPI and 6G.
- **Infrastructure** - Gati Shakti will strengthen multimodal connectivity, logistics, highways, railways, waterways and port-led development.
- **Defence** - Greater defence self-reliance, indigenous technologies, cyber security and increased defence exports are key priorities.
- **Green & Blue Economy** - Expansion of renewable energy, green hydrogen, energy storage, nuclear power, ocean resources and coastal development will support sustainable growth.
- **Soft Power** - Yoga, Ayurveda, tourism, culture, wildlife, sports, VFX, animation, gaming and the creative economy will strengthen India's global influence.
- **Energy security** - The address highlighted nuclear expansion, critical minerals, offshore exploration, solar energy, piped gas and hydrogen technology.
- **Youth empowerment** - Start-ups, Skill India, Khelo India, AI training, education and research were positioned as central to India's future.
- **AI skills** - A major target was announced to train one crore youth in AI skills.

- **Women empowerment** - The success of Lakhpati Didis and women's participation in STEM, defence and governance was highlighted, along with the call for implementation of women's legislative reservation.
- **Social welfare** - Inclusive development, Ayushman Bharat and expanded social-security coverage were highlighted as instruments to ensure that development reaches the last person.
- **Internal security** - The Prime Minister highlighted the decline of Naxal violence, the need to counter extremism and the creation of a modern voluntary Civil Defence network.
- **Sports** - A nationwide talent hunt for children aged 5-15, along with India's ambitions for the 2036 Olympics, was emphasized.
- **Drug-free India** - A nationwide Nasha Mukta Yuva Abhiyan was proposed as a collective effort involving families and civil society.
- **Digital Census** - Citizens, especially youth, were encouraged to participate actively in the first Digital Census.
- **Global ambitions** - India aims to build globally competitive companies, financial institutions, pharmaceutical firms, technology companies and professional-service firms.

What is the core message by the Prime Minister?

- The address presents Viksit Bharat 2047 as a whole-of-nation mission based on Aatmanirbharta, manufacturing, technology, infrastructure, defence, sustainability, soft power and youth-led innovation.
- The underlying message was that India must move from scale to global competitiveness, from being a consumer to a producer and innovator, and from incremental progress to rapid, transformative development.
