

Union Budget - Announcements for the Education Sector

What does the budget hold for the Education sector?

\n\n

\n

- Union budget has allocated Rs85,010 crores for the sector for 2018-19.
- This was less than 4% increase from the previous year's estimate, which was probably because the government didn't have enough fiscal room.
- The budget has intended to focus on education holistically without segmentation from pre-nursery to Class XII.
- This would imply that the government is viewing an integrationist approach by merger of several school schemes in the near future.
- 3% education cess will be replaced with a 4% education and health cess, which is expected to enhance revenue by about Rs.11,000 crores.
