| *The Delhi government is set to designate rabies as a notifiable disease.*<br>• A notifiable disease refers to any illness that must be reported to government authorities as mandated by law.<br>• Timely notification enables authorities to monitor disease incidence and offers early warning of potential outbreaks.<br>• **Examples –** Cholera, Tuberculosis, Malaria, Dengue, COVID-19.<br>• **Legal framework –** Epidemic Diseases Act, 1897<br>• **Criteria -**<br>  - Relevance to national or international regulations or control programs.<br>  - Incidence at the national, state, or district level.<br>  - Severity, including the potential for rapid mortality.<br>  - Communicability and potential to cause outbreaks.<br>  - Significant risk of international spread. |
| **Rabies** |
| • Rabies is a viral disease that is almost 100% fatal once symptoms appear, but it is preventable through timely medical intervention.<br>• **Cause –** Transmitted via the saliva of infected animals, primarily dogs.<br>• **Symptoms –** It includes fever, headache, excessive salivation, muscle spasms, paralysis, and mental confusion.<br>• **Prevention –** Strategies include vaccination, both pre-exposure and post-exposure prophylaxis, as well as animal control programs.<br>• **Fatality –** The disease is almost universally fatal once clinical symptoms manifest. |

## System for Accounting and Management of Pension (SAMPANN)

• **SAMPANN –** It is an integrated, online pension management system for _Department of Telecommunications (DoT) pensioners._
• It is a single platform for processing, sanctioning and disbursing pension _directly to the bank account of pensioners._
• **Digital Governance –** It also offers online grievance redressal, digital profile management and transaction record, enhancing transparency and efficiency for telecom retirees.
• It advances the digital governance and paperless services, important pension related documents i.e. Gratuity Payment Orders, Pension Certificates/ePPOs, Pension Commutation Payment Orders and Form 16 are now made available through _DigiLocker._
• It enables pensioners to securely access, store, and retrieve their official documents anytime and anywhere, ensuring greater convenience, authenticity, and long-term digital preservation of records.

## Human Capital Working Group Meeting

• **Convened by –** IndiaAI, Ministry of Electronics and Information Technology (MeitY), Government of India, in collaboration with the Government of Assam, and IIT Guwahati.
• **Discussions on –**
   - Gender-Responsive Strategies for the AI Transition,
   - Redefining Education for the Cognitive Age,
   - The Architecture of the National Language Translation Mission,
   - Building an Inclusive and Empowered India, and
   - The Reverse Engineering Approach to AI Education.
• **Objective –** To treat AI as a public utility, the Working Group Meeting will focus on designing inclusive, scalable, and responsible approaches to AI-led workforce transition.

## Economy

### 1st Vande Bharat Sleeper Train

• A semi-high-speed train with a design _speed of up to 180 kmph._
• **Operate between –** Guwahati in Assam and Howrah in West Bengal.
• **Equipped with –** Automatic doors, the KAVACH safety system, improved fire safety mechanisms, disinfectant technology and CCTV surveillance in all coaches.

## Environment

### Convention on Biological Diversity (CBD) - Online Reporting Tool (ORT)

_For the first time, the UN Convention on Biological Diversity is letting communities, cities, non-profit groups, and businesses use its official reporting system._
• **ORT –** It enables communities, cities, organizations, and businesses, in addition to national governments, to submit information regarding their biodiversity actions under the Kunming-Montreal Global Biodiversity Framework (KMGBF).
• **Aim –** To capture conservation work beyond national governments under the global biodiversity framework agreed in 2022.

## Science

### Residue Upgradation Facility (RUF)

• **Established at –** Visakhapatnam (Vizag), Andhra Pradesh, India.
• **Commissioned by –** Hindustan Petroleum Corporation Limited (HPCL)
• **Capacity –** 3.55 Million Metric Tonnes per Annum (MMTPA).
• **LC-Max-based Technology –** The facility utilizes the _world's first LC-Max-based residue hydrocracking technology_, which enables conversion of approximately 93% of bottom oils into high-value petroleum products.
• This addition is projected to increase the refinery's distillate yield by up to 10% compared to pre-expansion levels.

## Index

### World Risk Index

• The index is calculated for each country by multiplying exposure and vulnerability, thereby quantifying disaster risk across different countries and regions.

• **Released annually –** since 2011.

• **Part of –** The _World Risk Report 2020_, by the United Nations University Institute for Environment and Human Security (UNU-EHS), Bündnis Entwicklung Hilft, and the University of Stuttgart in Germany.

• **Components –** It combines exposure to natural hazards, such as _earthquakes, tsunamis, floods, droughts, and sea-level rise, with societal vulnerability_, which includes susceptibility, coping capacities, and adaptive capacities.

• **Objective –** To identify countries that most urgently need to enhance their capacity to cope with and adapt to extreme natural events.

• **Highlights –** _India is ranked 2$^{nd}$, following the Philippines_, among the Asian economies analysed.
