##### Update to India's CPI Base Year

- **Current CPI** - Base year 2012
- **New CPI** - Base year 2024, to be released on 12<sup>th</sup> February.
- **Reason for Update** -
  - The 2012 CPI weightages are outdated and fail to capture current consumption trends.
  - Official inflation in December 2025 was 1.33%, but households perceived it at 6.6% according to the RBI survey.
- **Source of new weights** - Household Consumption Expenditure Survey 2023 - 24.

##### Consumer Price Index or CPI

- It measures the overall change in the prices of goods and services that people typically buy over time.
- The goods and services that are included in the basket are determined from the Household Budget Survey (HBS), which is conducted every 5 years.

##### Base Year

- A base year serves as the starting point for tracking numbers over time.
- These are used in financial analysis to track growth in sales, revenue growth, and other metrics.
- It is revised periodically to better capture the structural changes happening in the economy by updating the methodology of compilation and incorporation of new data sources.
- **Proposed new base year for** -
  - GDP and IIP is 2022-23, and
  - CPI is 2024.

### **Household Consumption Expenditure Survey 2023 - 24**

- **Conducted by** - National Statistical Office (NSO), Ministry of Statistics and Programme Implementation.
- **Objectives** -
  - To collect information on consumption and expenditure of the households on goods and services.
  - To provide data required to assess trends in economic well-being,
  - To determine and update the basket of consumer goods and services and weights used for the *calculation of the Consumer Price Index*.
