**Central Sector Scheme of Scholarship for College and University Students (CSSS)** 

Prelims: Current events of national and international importance

## Why in News?

CBSE has released a public notice inviting students to apply for the Central Sector Scheme of Scholarship for College and University Students (CSSS) for the academic year 2025–26.

- **Scholarship sponsored by** The Department of Higher Education under the Ministry of Education.
- Aim It is designed to provide financial assistance to deserving students to help meet part of their daily expenses during their <u>graduation and</u> <u>postgraduation studies</u>.
- It is meant to help bright students from *economically weaker backgrounds* continue their higher education.
- **Eligibility** These scholarships are <u>evenly distributed between male and</u> <u>female students.</u>
- They are then dispersed among several State Education Boards and central boards, such as CBSE and the Council for the Indian School Certificate Examinations (CISCE).
- ullet Dispersal is based on the population of students in the  ${\color{red} 18\text{-}25~age}$  category in each state's jurisdiction.
- The number of scholarships allotted to a State Education Board is distributed amongst pass-outs of the Humanities, Science and Commerce streams in the ratio of **3:3:1.**

# • Eligibility criteria

- $_{\circ}$  Be above the 80 $^{ ext{th}}$  percentile of successful candidates in the relevant stream from their respective board of examination in Class XII.
- Be pursuing a regular course (and not a distance-learning course) in a recognized institution.
- $\,{\scriptstyle \circ}\,$  Not be availing benefits from any other scholarship schemes.
- $_{\circ}$  Have a family income of less than Rs 4.5 lakh per annum.

- Students changing their institution may be allowed to continue or renew the scholarship.
- **Amount awarded** For the first three years of undergraduate education, the scholarship offers Rs 12,000 per year, and for the fourth and fifth years, it offers Rs 20,000 annually.
- In the fourth and fifth years of professional studies, such as B.Tech, students receive 20,000 annually.
- **Application process** Applications need to be submitted online via the National Scholarship Portal (NSP).
- **Disbursement of scholarship** It is disbursed directly into the student's savings bank account through the Direct Benefit Transfer (DBT) system, utilizing the *Public Financial Management System (PFMS) gateway*.
- To facilitate this, students are required to link their Aadhaar number with their bank account.
- Institutional Nodal Officers have also been requested to verify, mark defects, or reject applications through their respective login portals promptly to ensure smooth processing.

#### **India's Outreach to the Global South**

Prelims: Current events of national and international importance

# Why in news?

Recently Prime Minister's is on a 9-day, 5-nation tour from July 1, 2025, covering Africa and South America.

- **Prime Minister's foreign visit** The **foreign visit** intended to strengthen India's engagement with the **Global South**, economic partnerships, diaspora ties and participation in the **BRICS Summit**.
- **Focus** To strengthen India's strategic and economic footprint in Africa & South America.
- It reinforces India's leadership role in the Global South.
- It deepens ties with key resource-rich nations (lithium, oil, gold).
- It showcases India's commitment to multilateralism and global governance reforms.

## **Key Countries and Highlights**

- **Ghana** It is the first bilateral visit by an Indian PM in three decades.
- Ghana is one of West Africa's fastest-growing economies.
- India is the largest destination for Ghanaian exports, mainly gold.
- **Agenda of the visit** Strengthening ties in economy, energy, defence, development cooperation.
- Trinidad & Tobago (T&T) First Indian PM visit to T&T since 1999.
- Large Indian diaspora About 40-45% of Caribbean Indian diaspora lives here.
- It marks 180 years of Indian immigration to T&T.
- Bilateral trade (2024-25) **\$341.61 million**.
- Agenda of the visit Cultural ties, economic cooperation.
- Argentina First bilateral Indian PM visit in 57 years.
- Meeting with President Javier Milei, known for close ties with the US.
- In 2024 India was Argentina's 5th-largest trading partner.
- Agenda of the visit Defence, agriculture, mining, oil & gas, energy.
- Strong cooperation in **lithium**, crucial for India's green energy transition.
- Brazil Attending BRICS Leaders' Summit in Rio de Janeiro.

The  $17^{th}$  BRICS Leaders' Summit is scheduled to take place in Rio de Janeiro, Brazil, from July  $6^{th}$  to  $7^{th}$ , 2025 and the theme is "Strengthening Global South Cooperation for More Inclusive and Sustainable Governance".

- Brazil is the India's largest trading partner in South America.
- Agenda of the visit Global governance reforms, Peace, security, multilateralism, AI regulation, climate action and global health.
- Namibia PM Modi's first visit to Namibia and 3<sup>rd</sup> Indian PM visit overall.
- $\bullet$  Trade with Namibia grew from \$3 million in 2000 to \$600 million currently.
- India's investments in Namibia Mining, diamond processing, manufacturing, services.
- Previously, India received **eight cheetahs** and relocated to Kuno National Park in Madhya Pradesh in 2022.

#### **GOSAT-GW Satellite**

# Prelims: Current events of national and international importance | Science & technology

## Why in news?

Recently Japan launched its third satellite in the Japan's mission to greenhouse gases in the atmosphere.

- **GOSAT-GW** Global Observing Satellite for Greenhouse gases and Water cycle.
- Developed by Japan Aerospace Exploration Agency (JAXA).
- Aim To monitor carbon, methane, and other greenhouse gases in the atmosphere.
- It monitors aspects of the global water cycle, including sea surface temperature and precipitation.
- Launch It is launched on June 29, 2025, from Tanegashima Space Center, Japan.
- $\bullet$  It is launched using Japan's H-2A rocket, which completed its  $50^{\text{th}}\,\text{mission}.$
- **GOSAT series** It is the third satellite in the **GOSAT series** following GOSAT and GOSAT-2.
- **Global collaboration** Within one year, it will begin distributing data to users worldwide, including the U.S. National Oceanic and Atmospheric Administration (NOAA).
- **Significance** It supports climate change mitigation efforts by providing high-resolution environmental data.
- It aims to improve global understanding of greenhouse gas emissions, water cycle changes and aids in tracking progress toward net-zero emissions targets.
- It supports disaster management through better rainfall and ocean temperature data.
- It helps in monitoring of sea surface temperature and precipitation.
- It supports global climate models and policies by providing high-resolution data.

## **Quick Facts**

- **H-2A rocket** It is introduced in 2001 and carried major missions like Japan's SLIM moon lander and Hayabusa2 asteroid probe.
- It is retired after this mission and will be replaced by H3 rocket, designed to be more cost-competitive and capable of carrying larger payloads.

## **Role of Private Capital in Sustainable Development**

Prelims: Current events of national and international importance | Sustainable Development

## Why in news?

Recently, Finance Minister highlighted Role of Private Capital in Sustainable Development issues at the International Business Forum, Sevilla, Spain.

- **Private capital** It is the money invested by private players (like individuals, companies, venture funds, or private equity firms) to support businesses, infrastructure, or development, aiming for financial returns or economic growth.
- Private investment is crucial for achieving inclusive and sustainable economic growth.
- It acts as a catalyst by unlocking capital, boosting productivity, fostering innovation, and introducing technology.

## Forms of Private Capital in Sustainability

- Foreign Direct Investment (FDI) Capital inflows into green energy, sustainable infrastructure, etc.
- Investments made with the intention to generate measurable social and environmental impact alongside financial returns.
- **Green bonds** They are financial instruments specifically aimed at funding eco-friendly projects.
- **Venture capital** Supporting green start-ups, clean technologies, and circular economy ventures.

# **Role in Sustainable Development**

- **Development imperative** Private capital is becoming a vital source of development finance, amid volatile FDI flows and global uncertainties.
- Bridging the financing gap Public funds alone are insufficient to meet the \$4.5 trillion annual investment needed globally for SDGs.
- Innovation and technology development Private sector drives innovation in renewable energy, waste management, water conservation,

and clean mobility.

- **Scalability and efficiency** Private enterprises can scale sustainable solutions rapidly, leveraging operational expertise and market networks.
- Catalysing climate action Private capital accelerates decarbonization efforts through renewable energy, carbon markets, and green infrastructure.

## **Challenges in Mobilizing Private Capital**

- Low and middle-income countries still receive a disproportionately small share.
- Perceived high risks in emerging markets.
- Inadequate regulatory frameworks.
- Lack of reliable data on sustainability impact.
- High cost (borrowing rates) of capital.

# **Thali Index Shows Hidden Hunger Despite Falling Poverty Estimates**

**Prelims:** Current events of national and international importance | Social Development

# Why in new?

Recent findings show that discrepancies in poverty estimation which highlights hidden food deprivation.

- Thali Index It is a proposed measure to assess the standard of living based on food affordability in India.
- It uses the price of a **basic vegetarian thali** (meal) as a practical metric.
- It represents a culturally familiar, nutritionally balanced unit comprising **rice/roti, lentils, vegetables**, and optionally dairy/meat/fish.
- Thali price reference Price of a vegetarian thali taken as ₹30, based on data from Crisil, considering regional variations across India.
- Shift from Calorie-based measurement The Thali Index reflects actual food consumption patterns that consider nutrition, cultural norms, and satisfaction, not just calories.
- It provides a more relatable and tangible measure for the general public.

# **Key Findings Using Thali Index (2023-24)**

- **Affordability** Up to 40% of the rural population could not afford two vegetarian thalis a day.
- In urban areas, up to 10% of the population faced the same deprivation.
- It indicates higher food deprivation than suggested by official poverty estimates from SBI or World Bank.
- **Policy implications** Current poverty estimates may understate the need for food subsidies.
- Thali Index suggests food subsidies should not be eliminated but rationalised.
- Thali Index offers a goods-based, realistic measure of food security.
- It is compatible with nutritional and calorific assessments, making it a comprehensive tool for evaluating poverty and deprivation.
