

## **US Security Doctrine and its Impact on India**

### **Why in news?**

\n\n

\n

- India has welcomed Mr. Trump's recently announced 'National Security Strategy' (NSS), which has openly criticised many nations.

\n

- But India needs to exercise caution to avoid becoming second fiddle to the US at international forums.

\n

\n\n

### **What are the implications for India?**

\n\n

\n

- NSS perceives India positively, affirms India's stature and acknowledges India's emergence as a leading global power.

\n

- It supports Indian leadership in the region's development and outlines India's primacy for ensuring security in the Indian Ocean.

\n

- It also sees China's aggression as an assault on the "sovereignty" of the neighbouring nations in the region.

\n

- Pakistan's continued support to terror groups has also been noted.

\n

- All of these are aligned with India's concerns, and indicate the growing convergence between US and India on strategic issues.

\n

\n\n

### **What are the implications for other nations?**

\n\n

\n

- NSS had singled out five countries (China, Pakistan, Russia, Iran and North

Korea) for criticism – which on expected lines have reacted negatively.

\n

- Particularly, China and Russia have been accused of using their military might to deny the US, access to “critical commercial zones”.

\n

- In response, China had said that the US is stuck in its Cold War mindset and Russia accused the US of practicing neo-imperialism.

\n

- Iran and North Korea have been critiqued for their nuclear programs, and Pakistan for its faltering to honour its security commitments.

\n

\n\n

### **Why caution is needed?**

\n\n

\n

- US policy priorities and perceptions have swung wildly under the Trump administration, thereby making its commitments unreliable.

\n

- Also, in many cases words haven’t been backed up by actions.

\n

- Notably, while the U.S. has talked of countering China’s influence in South Asia, it has not backed this with actual financial assistance for projects.

\n

- Also, while words on Pakistan’s soft approach to terrorism has been sharp, the U.S. continues to support the Pakistani government through huge funds.

\n

\n\n

### **What is the way ahead?**

\n\n

\n

- Lately, there has been an American withdrawal from pacts ranging from the Trans-Pacific Partnership to the Paris agreement on climate change.

\n

- Also, Mr. Trump is seen to be publicly at odds with many of his key advisors on many issues ranging from - Palestine, North Korea, Iran or Afghanistan.

\n

- A watch-and-wait stance is still India’s best option to preserve the autonomous and pluralistic nature of its engagement in world affairs.
