

### Daily Current Affairs Prelims Quiz 25-06-2025 (Online Prelims Test)

1) The **Rare Donor Registry of India (RDRI)** is maintained by which of the following organizations?

- a. National Health Mission (NHM)
- b. Central Forensic Science Laboratory (CFSL)
- c. National Institute of Immunohaematology (NIIH)
- d. Ministry of Health and Family Welfare

Answer : c

**Answer: (c)**

**Explanation:**

- The text clearly states, "Rare Donor Registry of India (RDRI) - It is maintained by **ICMR - National Institute of Immunohaematology (NIIH)**."
- **The ICMR-National Institute of Immunohaematology (NIIH)**, located in Mumbai, is a leading research center under ICMR. It focuses on hematology, transfusion medicine, and immunology, offering diagnostics, training, and maintaining India's Rare Donor Registry. NIIH has a rich history of discoveries, crucial for specialized blood resources and health.

2) A new gecko species, *Dravidogecko coonoor*, has recently been in news. This species is endemic to which of the following regions?

- a. Northeast India
- b. Andaman & Nicobar Islands
- c. Western Ghats
- d. Eastern Ghats

Answer : c

**Answer: (c)**

**Explanation:**

- The first line of the text explicitly states: "A new species of gecko, **Dravidogecko coonoor**, has been discovered in the **Coonoor Hills, Upper Nilgiris, Western Ghats, Tamil Nadu**." This directly identifies its endemic region.

3) The primary aim of India's first dedicated Household Income Survey in 2026 is to:

- a. Determine the percentage of households below the poverty line.
- b. Obtain an accurate picture of household income levels and patterns across urban and rural areas.
- c. Identify the regions with the highest and lowest per capita income.

- d. Track the growth of specific economic sectors within households.

Answer : b

**Answer: (b)**

**Explanation:**

- The text clearly states the "Aim – To get an **accurate picture of household income levels and patterns** and covers both urban and rural households."

4) Which of the following is a key physical feature of the B-2 Stealth Bomber's design?

- a. Twin tail fins
- b. Flying-wing design with no tail
- c. Variable-sweep wings
- d. Forward-swept wings

Answer : b

**Answer: (b)**

**Explanation:** Under "Other key features," it lists: "**Flying-wing design with no tail.**"

The B-2 Stealth Bomber is renowned for its distinctive "**Flying-wing design with no tail.**" This radical aerodynamic configuration, combined with radar-absorbent materials, significantly reduces its radar signature, making it exceptionally difficult to detect. This design is fundamental to its low-observable stealth capabilities, enabling it to penetrate dense air defenses.

1. 5) The Cabinet Mission Plan rejected the demand for:

- a. A federal structure.
- b. Provincial autonomy.
- c. Pakistan.

d. A Constituent Assembly.

Answer : c

**Answer: (c)**

**Explanation:** The text states: "Proposing a - Three-tier federal structure and **rejecting Pakistan...**"

The Cabinet Mission Plan, while rejecting the creation of Pakistan, accepted a **three-tier federal structure** for India. It proposed a Union Government with limited powers over foreign affairs, defence, and communications. Below this, there would be groups of provinces, and at the bottom, individual provinces, with provinces retaining all residuary powers and autonomy. It also paved the way for a **Constituent Assembly** to draft India's constitution.
