

### Daily Current Affairs Prelims Quiz 20-04-2026 (Online Prelims Test)

1). Which other Indian state, besides Karnataka, has constituted a cabinet sub-committee as of April 2026 to draft a bill similar to the Rohith Vemula Bill?

- a. Tamil Nadu
- b. Kerala
- c. Telangana
- d. Andhra Pradesh

Answer : c

#### Solution: C) Telangana

- As per the news, Telangana constituted a cabinet sub-committee in April 2026 to draft a similar anti-discrimination law.

Q2). NBCFDC works in synergy with several government schemes. Match the following pairs:

1. **PM-DAKSH:** Skill Development and Upskilling
2. **VISVAS:** Interest Subvention for SHGs and individuals
3. **SEED:** Educational and economic support for Denotified & Nomadic Tribes

Which of the pairs given above are correctly matched?

- a. 1 and 2 only
- b. 2 and 3 only
- c. 1 and 3 only
- d. 1, 2, and 3

Answer : d

#### Solution: D) 1, 2, and 3

- All pairs are correctly matched. PM-DAKSH focuses on skilling, VISVAS on financial subvention, and SEED specifically targets Denotified, Nomadic, and Semi-Nomadic Tribes (DNTs).

Q3). The term "**Gut Microbiota**", often discussed in the context of Irritable bowel syndrome (IBS) , refers to:

- a. The collection of enzymes produced by the pancreas to digest fats.
- b. The muscular contractions of the large intestine.

- c. A community of trillions of microorganisms including bacteria, viruses, and fungi in the GI tract.
- d. The protective mucus layer that prevents stomach acid from damaging the esophagus.

Answer : c

**Solution: C)**

- Gut microbiota is the vast ecosystem of microorganisms living in the digestive tract that play a crucial role in immunity and digestion.

Q4). Which of the following environmental conditions are most essential for the survival of *Arthrosphaera lutescens*?

- a. Arid and semi-arid grasslands.
- b. High-altitude alpine meadows with low humidity.
- c. Moist forest ecosystems with abundant decaying vegetable waste.
- d. Mangrove swamps with high salinity.

Answer :

**Solution: C)**

- As detritivores, they thrive in moist forests where they can consume decaying organic matter, which is essential for nutrient cycling.

Q5) The vision of “**Heal in India, Heal by India**” mentioned in Chintan Shivir 2026 primarily aims to:

- a. Ban the export of traditional Indian herbs to foreign markets.
- b. Promote India as a global hub for medical tourism and traditional healthcare practitioners.
- c. Provide free Ayush treatment to all foreign tourists visiting India.
- d. Replace all modern hospitals with Ayush-centric wellness centers.

Answer : b

**Solution: B)**

- The branding aligns with the global vision of "One Earth, One Family, One Future" to position India as a leader in holistic healthcare and medical value travel.
