

### Daily Current Affairs Prelims Quiz 09 -05- 2026

Q1. The first roadblock section using technical textile Geocells made from end-of-life plastic was demonstrated on which expressway?

- a. Delhi-Mumbai Expressway
- b. Yamuna Expressway
- c. DND-Faridabad-KMP Expressway
- d. Ahmedabad-Vadodara Expressway

Answer : c

Answer: (c)

Explanation: The demonstration was specifically conducted on the DND-Faridabad-KMP Expressway near Delhi with NHAI support.

Q2. "Lateral Confinement," a term often associated with Geocells, refers to:

- a. The prevention of water seepage into the subgrade.
- b. The restriction of horizontal movement of infill material under pressure.
- c. The vertical compression of the bitumen layer.
- d. The chemical stabilization of expansive clays.

Answer : b

Answer: (b)

Explanation: Lateral confinement is the core mechanism of Geocells; it holds the soil/sand in place, preventing it from spreading outward when a heavy vehicle passes over.

Q3. Which of the following national platforms are integrated with JANANI to ensure interoperability?

- 1. Ayushman Bharat Health Account (ABHA)
- 2. U-WIN
- 3. POSHAN Abhiyaan

Select the correct answer:

- a. 1 and 2 only
- b. 2 and 3 only

- c. 1 and 3 only
- d. 1, 2 and 3

Answer : d

**Answer: (d)**

**Explanation:** JANANI integrates with **ABHA** (for ID/records), **U-WIN** (for immunization), and **POSHAN** (for nutrition) to provide a holistic health ecosystem.

Q4. Consider the following statements regarding the registration process on JANANI:

1. Beneficiaries can self-register through web and mobile platforms.
2. Authentication can be done using ABHA, Aadhaar, and mobile numbers.
3. Verification is strictly paper-based to prevent digital fraud.

**Which of the statements given above is/are correct?**

- a. 1 and 2 only
- b. 2 and 3 only
- c. 1 and 3 only
- d. 1, 2 and 3

Answer : a

**Answer: (a)**

**Explanation:** Statement 3 is incorrect. The platform uses digital authentication (including biometric verification) to prevent duplication and ensure continuity for migratory populations.

Q5. The term 'Ecocide' was originally coined in 1970 by Prof. Arthur W. Galston to describe environmental devastation caused by:

- a. Industrial carbon emissions in Europe.
- b. The use of herbicides during the Vietnam War.
- c. Deep-sea mining in international waters.
- d. Nuclear testing in the Pacific Ocean.

Answer : b

Answer: (b)

**Explanation:** Arthur W. Galston coined the term to describe the massive, long-term environmental damage caused by "Agent Orange" and other herbicides during the Vietnam War.
