

Q1) The indian government should keep a wary eye on developments in the gulf, impending West Asian Crisis and make its own preparations. Analyse?

West Asia, Comprises of gulf nations and other countries like Iraq, Iran, Israel, Palestine.

This region play a major role in global economy and security, then Crisis on this region has a global impact.

How it affect india

* India depends on this region for its oil needs, Energy play an important role in indian economy

* Diaspora

65% of indian diaspora lives in this nations, security of this region important for indian External affairs Sector

* Strategic location & Investments

India always keep good relations with this region, and maintain equal distance from both Saudi Arabia & iran. India invested in Saudi Arabia for hospitality & Educational Sector, and in iran by Chabahar Port. Crisis in this region impact the investments & bilateral relation.

India should follow a diplomatic interventions in issues rather than simply One Side Opinion without intervene in the internal issues of any west Asian country. India raise the issue in UN & other global organisations for a peaceful west asia and some time india develop the technologies for meet raising energy demands.
