

Q Considering the Sub-Par Performance of e-NAM, Central Law should Overrule State Marketing Laws for better Outcomes. Do you Agree with this View? Critically Analyse.

The latest transportation of green gram from Gujarat's Palaspur mandi to Sumelpur mandi & Rajasthan through e-NAM platforms reveal the importance of inter-state transactions through an efficient Online-Platform. In Agricultural Produce Market Committee (APMC) act, the Central majority in State hands but the new e-NAM measures started in 2016, Central moves to Central hands.

Is e-NAM Provides better Outcomes

- 1) Central and connects the mandis in India through single Platform
- 2) Provide "Ease of Doing Business" Platform for buyer and seller.

2) Transparency in buying and selling Agricultural Commodities

e-NAM good initiative which ^{provides} better comes, but has it affect the Cooperative Federalism?

3) e-NAM regulated by Union Agriculture Ministry, and e-NAM Controls and Coordinates State APMC's. The issue is about Agriculture is a State Subject.

Outcome is more important than its day, by e-NAM initiatives more benefits obtained by rural farmers, because they connect to a national level platform to overcome local Market fluctuations. States Coordinations and Cooperations ^{are} important for success of the e-NAM initiative. States should powered with more Out of box strategies to support central move to Agricultural sector growth.
