①

Discuss the implications of laptops import curbs on the small and medium sector enterprises (250w)

Recently Indian government had laptops imports curb in the motive of 'Make in India' and support indigenously made laptops in India.

from high

→ will help in Reduce the fiscal deficit by decrease in imports

→ promotion of indigenously made laptops.

→ Decrease in cost of the products.

Ex: Apple Manufacturing introduced in India helped to decrease its price in India, because of no import tax

→ Demand of the product may increase due to its low price, which helps in higher sale.

→ Due to low prices, easy access to the laptops for unaffordable

→ Learning of Technology for Indian Manufacturers to increase their efficiency and become competitive

→ Jobs Creation for Indian Companies

positive
impacts of
laptops import
curbs

Negative impacts of Curbs of laptops

- (i), No adequate access to the raw material
for Semiconductor chips
- (ii), Low quality of indigenously made laptop will
come to market. Due to lack in quality they may
not get sold
- (iii), This Do not motivate 'Make in india' But
motivates 'Reassemble in india'. The Best example
for this is Apple manufactures
- (iv) unnecessary free Ben and subsidies ^{to} ~~for~~
encourage Reassembling in india
- (v), cost of laptops increases due to its high demand.
and low supply of good quality.

How to overcome
the in of
-ve impacts of
laptop curbs

- Motivate Raw Material Industries
- Technology Transfer from
developed countries
- Track on price increase and po
on Relative policies

India is getting close to its ambitions with its
new policies and motivation, there will get good
outcome with proper look on the implementation
