1) Education in regional languages will foster inclusivity. Comment (150 words)

National Education Policy 2020 proposes to give Education in the regional languages. It also proposes education in regional languages in the primary and secondary level of education and in the higher Education.

Education in Regional languages foster Inclusivity:

1) Give Importance to Regional languages:

India is a multi-linguistic country having many languages spoken in the region level. Part Schedule VIII of our Constitution allows 22 languages as official languages. So, Education in regional languages give equal importance to all of these languages.

2) Increase the Creativity:

There is a say that 'Your Education should be in the language which comes in your dream when you sleep'.

Education in Regional languages increase the creativity of students and results in the gain of knowledge.

3) Eliminate Discrimination:

There is a discrimination between the students studying in English medium and those studying in the regional medium.

Education in Regional Language provides equality among all the students.

4) Increase the literacy rate:

It would substantially increase the literacy rate of our country.

This type of Education will be an accessible one and affordable one for all.

5) Foster the Inclusivity:

Education in Regional Languages create an inclusive society. It treats everyone equal. It eliminates discrimination in the Education.
