The Yes, The Indian Geographical Indications economy can be a platform to showcase an Indian model for comprehensive development.

How is GI tag much different?  
It talks about the specification of not only the product level but also the significance of the geographical location & aids to its exclusive taste & origin.

### COMPREHENSIVE DEVELOPMENT

- \* It ~~can~~ boost the producer revenue
- \* It increases steadily the export as discussed in ITC meeting
- \* Export of GI product incentivises the rural farmers & indirectly the rural economy
- \* Production of GI products have brought lots of corporate players into play
- \* Eventually rural farmers can bargain & sell the best of bid
- \* Handicrafts, culture, heritage can be protected & can be spread world wide
