

Trace India-Iran. relation. why Chabahar revived with equal enthus. what explains diff. in latent US in to latest agreement

India and Iran recently signed 10-year treaty regarding the operations in the Chabahar port.

This move is promising in continuing the trade relations between the countries.

Lineage of relations

Enthusiastic revival

strategic - The port Chahabhar is approximately located 1500 nautical

miles from Mumbai. India's oil and natural gas supply is the main dealing along this route.

connectivity - The Chahabhar port can connect Central Asia through Afghanistan bypassing Pakistan.

It can also be a part of much anticipated INSTC - International North South Transport Corridor.

Geopolitics India's led IMEC India middle East Economic Corridor is in limbo due to Israel at

can and retaliatory vessel seizure.
This gives a leverage to develop
Chah bahar port.

The main speed breaker in this
deal is USA sanctions.

Reaction of USA

USA unilaterally off sanctions in
2015, due to its presence in Afghanistan.
Now, the CAATSA threatens the agreement.
A stable and democratic Afghanistan
and Iran's nuclear enrichment programs
closure can temporarily bring
respite to the stalled deal.

India has been a diplomatic
winner in similar occasions. The
Chah bahar deal is a strategic one
involving more states. Indian diplomacy
will prevail in sailing through this deal.
