

Despite flaws, NITI Aayog's Health Index is helpful for the socio-economic progress of the country. Analyse.

NITI Aayog has been robust with the pandemic on line being a central body it is decided to take over in every Ministry.

NITI Aayog's Health Index components

Though its making initiative it has failed to consider certain factors such as non communicable disease, Mental disease etc

But, this health index is still of great value especially during the hours of need (i.e) Pandemic years.

with the provision of Health Index various ~~counter~~
counter measures can be drafted

→ contemporary policy & grants in aids can
be provided to the poor performing states

eg: ~~up~~ → Uttar Pradesh Assam

→ Provision of Health workers can be suggested
to poor performing states ^{may be} possible because
of this information

→ counsel or advice can be provided by the
center & for betterment of states.

This proactive work by NITI Aayog ~~has been~~
been though it has missed some parameters
its valuable information has widened the scope
of counter measures, which shall ~~also~~ give
