

② Affordability of private health care needs to go along with the expansion of spending on ~~pub~~ public healthcare. Discuss.

① While we endeavour to make private ~~for~~ healthcare more affordable caution must be exercised, that it doesn't substitute adequate public spending on health.

② Affordable private healthcare must only come to ~~supplement~~ strengthen public healthcare.

③ What initiatives we have to ensure:-

① private healthcare more affordable without ~~any~~ affecting quality of care.

② Creating organized networks like Providers like Health maintenance Organizations, which can be regulated easily.

③ We need overarching policies that drive down private health care costs even for the self paying consumer with little or no government ~~A~~ subsidy.

And propagating many  
Business process Innovations like (BPI)  
like cost ~~reducing~~ innovations by
