

Q) There is a need to bring an effect tourist police in the country. Do you agree with this view? comment. (200 words)

Indian Tourism is gaining the pace post pandemic and is generating revenue to the country. Though India is not yet an attractive destination like European countries but it has attracted the masses especially americans due to cultural diversity, food, religion and regional diversity it offers.

Why do we need Tourist police in the country?

- ① Increasing travellers to the country.
- ② Increasing crime rates against foreigners
ex: 12 year old Russian girl Raped in Goa, a lady was raped and murdered ~~and~~ in Kerala in 2018, Recently, British lawyer experienced sexual assault in a cab making her to leave India in 2 days
- ③ Security will bring assurance among travellers especially solo women travellers to travel India.

① Swift action needed

Delay in action can bring negative opinion on the country, management and even the police system. Which might influence the probable future tourists.

Measures

- ① Delhi has already adopted Tourist police system
- ① Other metropolitan and frequently visited destinations should be security driven.
- ① Various ministries should come together and even governments ~~and~~ at state and national level should cooperate with each other.

India is a land of different worlds. No country in the world can offer such diversity. Our travel/~~poten~~ tourism potential is immense and few states are trying to come up with own logos, slogans, ads to attract people. Hassle free transportation, communication and security can make Tourism into a economically viable one.
