

195-3 - Infrastructure.

4. Logistics and supply chain complementarity is vital to build a resilient economy and to integrate with global supply chain. Discuss.

During pandemic, talks are on the way to frame address mechanism to address Supply chain Resilience. Various strategies have to be devised - especially for logistics sector like Logistics continuum, Global value chain, etc.

Logistics continuum.

National logistics policy recently released, focus on enhancing logistics sector. It

PM - Catisakti connectivity plan - multimodal

connectivity - whole of government approach - ensure

1400+ connectivity

- National waterways
- ports
- increasing railways
- road sector etc,

complementarity of National Logistics policy & national master plan

1. Added boost to existing schemes.

eg: one district one product & District Export hub enterprises.

Gatisakti plan - will help in providing logistical infrastructure

Logistics policy - can enhance exporters, in leveraging, connectivity link.

2. New Age technologies like Artificial Intelligence, machine learning etc, will help in enhancing human resource, skilled manpower.

3. De-Risk Manufacturing hubs

Enables in creating global value chain, by enhancing setting up manufacturing hubs within India contribute to china+1 strategy.

way forward.

As India is ~~ab~~ has assumed G20 presidency. Incorporating such measures, projects india as a model nation to others in enhancing global supply chain
