

Project Sampurna's success is reducing child malnutrition is a model that can be easily implemented Anywhere in the country Discuss.

One of the vilest form of poverty is malnutrition as it sucks the life blood of India (ie) the upcoming generations who will lead the future of India.

Malnutrition: It is the deficiency of nutrition in the diet of a person which leads to sickness and even death.

Vicious cycle of Malnutrition

most of the women who bear malnourished or under weight child are affected by Anemia due to lack of nutrition which leads to this vicious cycle or death.

This chain can be broken by only steps taken towards nutritious India.

Govt policy on Nutrition.

→ POSHAN-PM

→ Sankhyata policy

→ Sampurna Project.

The Sampurna project is almost a zero budget project and the results were remarkably high in the tests in Assam state village, which showed significant improvement in SAM - Severely Acute malnutrition & MAM - Moderately Acute malnutrition.

The project focus on the mother of the malnourished child which provide them with:

→ Economic Stability (SHG's)

→ A Help Buddy (A healthy mother of that locality with relatively same Socio-Economic condition)

→ Healthy diet etc.

With the provision of the Sampurna project the malnutrition showed improvement over 90%, which is of remarkable feat. This shall lead India towards "POSHAN Bharat".
