

Q The camp of Swachh Bharat Mission can be a model to contain the spread of Coronavirus after vaccination. Discuss.

Ans Swachh Bharat Mission was launched in 2014 by Honorable PM Narendra Modi.

Aim = ways to avoid the outside open defecation and to clean the streets

Why there was need?

Impact

→ The no. of heat case due to open defecation has been reduced.  
• like Malaria, Dengue & etc

→ The Clean Campaign was started and the States or cities have provided ranking for best performance on cleanliness

→ Approx 2 lakh toilets have been constructed

↳ Acc. to CAG report only few are able to use and have all available facilities

→ Many big cities participated also the people gave

## attention to this Campaign

Containing the spread:-

- (1) The use of masks and safety suits need to be strictly enforce
- (2) There is a need to distribute PPE kit to the Sanitation workers
- (3) The disposal need to be in proper and sustainable manner to avoid harmful side effects by the workers and doctors
- (4) The need to impose fine if there is violation.
- (5) Need to aware the people about the Coronavirus spread and benefit of using masks, PPE kit, and etc. especially to workers (phone to waste area)
- (6) Proper and timely medical checkup need to Sanitation worker to avoid such spread of disease

Conclusion:

The disease can be avoided to spread by educating the side effects and using proper precaution
