

1. Discuss the instruments, resources and methods that are necessary to address delay in the justice delivery system in the country.

In India each subordinate courts, district courts, high courts and also supreme court has many of his pending cases.

Reforms needed in judicial system :

* In India many of the ^{high} courts ~~and~~ the judges, ^{are vacant} and many of the judges will retire the age of 62 so they difficult to the find judge's talent

* lot adalat is one of the important thing to solve

cases in easy manner. and the pendency of the cases will also reduced

* Special leave petition : In a week hundred petitions were filled and Retired Judges can be used to hear petitions

* In covid period many of the ^{courts} ~~houses~~ will implement the online court system In these system ~~is~~ will implement means reducing the pending cases.

way forward :

court should do any action to reduce the pendency of cases, the ~~can~~ judicial system will also ^{maintain} ~~mainly~~ the judicial system transparency and People's happiness.
