Yes, demands of reforms are needed to scale up the opportunities in outer space.

Why it is needed?

- \* Recently, the US-India relationship in QUAD meeting regarding cyber security, semiconductor, maritime security, 5G, AI, block chain etc
- \* It is much needed today as it is a lucrative business
- \* Needed to maintain the military bases of the countries growing ambitions
- \* Already China is showing great advancements in outer space, to counter attack we need to scale up
- \* To monitor the moon, satellites & other celestial bodies.

INDIA'S CONCERNS:-

- \* India is on opportunist side, can we have exhibited

# 24

FRIDAY • JUNE

Indo-US relationship by the project 'Atrium'

- \* We get chance to maintain security in outer space as same as maritime security
- \* Space Situational Awareness helps in sharing of data & services for long term

### CONCLUSION :->

SSA is needed to create awareness as commercial & military is growing in outer space. Sweeping reforms are much needed.
