

Considering the present situation, the state needs to do undertake a series of measures that prioritize the right to life of its citizens.

COVID-19 pandemic affected all sections of the society in social, economic aspects.

Loss of employment, reverse migration, hunger, poverty, health issues are consequence of the pandemic.

Securing these people fundamental right of "Right to life" is government priority.

* Contains viral spread: it requires free vaccination, i.e. universalization of vaccine drive, rather than release into the market.

* To ensure no one will be hungry, free ration for next 6 months is needed.

EX:- PM GARIIB KALYAN ANNA YOJANA
One ration one card

* Economy is in the state of recession. "Economic package" which accelerates

Employment is to be made

* In order to address reverse migration
MGNREGS need to be made demand
down rather than fixed 100 days
or atleast limit need to be extended

* Agriculture sector which affected in
Forward backward linkage, income
support is made & insurance

EX:- PM KISAN, Fasal Bheema Yojana

* vulnerable sections of population who
unable to get employment, government
must transfer atleast ₹5000 for each
BPL household next 3 months.

pandemic affected life & Livelihood
of people govt must take supreme
effort to give substance & meaning
to the term 'right to life' & the
pledges of equality & Fraternity in
the constitution
